## WORK EXPERIENCE

### Frontend developer Wipro Technologies

01/2020 - Present

Pune, MH

Worked as a front end developer for a self-care web application of a leading German telecom client

#### Achievements/Tasks

- Identified web-based user interactions and developed **highly responsive** user interface components via React Concepts
- Translated **designs & wireframes** into high-quality code and wrote application interface code via JavaScript following **React.js workflows**
- Coordinated with the **development team of 35** to discuss user interface ideas and applications
- Developed the latest **customer-facing, business critical self-care web application with 20mil+ users** using React.js and built reusable components in a **test-driven development** methodology
- Reviewed application requirements and **interface designs** to ensure compatibility with existing applications
- Integrated with third-party services and **external APIs** as a part of the implementation of the mission-critical **single page application** resulting in the decrease of the system's complexity

### Test Engineer Wipro Technologies

09/2019 - 01/2020

Pune, MH

Worked as an automation end-to-end test engineer for telecom system applications.

#### Achievements/Tasks

- Designed** and **executed automated** end-to-end tests for telecom applications
- Contributed in the preparation of the **defect management, communication** and **Test scope** sections of the test plan
- Documented** test cases and performed **peer reviews** on the teammate's work
- Performed **integration, functional, and regression** E2E tests in Tricentis Tosca

## EDUCATION

### B.E. in Computer Engineering

Gujarat Technological University, Ahmedabad

07/2015 - 05/2019

Ahemadabad, Gujarat

## SKILLS

## PERSONAL PROJECTS

### Covid-19 Tracker (04/2020 - 05/2020)

- A web application built using **react, redux**, and **bootstrap** to track various statistics about covid-19 infection rates for India and its state, UTs, and cities. **Visualization of data** done in **tables** and **various charts**
- Integrated **third party** Covid19India **API** to populate the data and third party chart library **CanvasJS**

### FoodZilla (05/2021 - Present)

- An online food delivery system built on **modern javascript full-stack**. Customers can view/make orders to the restaurants listed on the system and restaurant owners can accept and process the orders
- The app deals with **CRUD** operations in MongoDB, user login/sign up, **protected routes, authentication** using **jsonwebtoken** and authorization
